Magnesia-Alumina Spinel Brick

1,Description of Magnesite-Alumina Spinel Brick:

This product uses high-grade fused magnesite to synthesize spinel raw material. It is produced by high pressure molding and high temperature sintering. It has excellent wear resistance, suddenly-changing temperature resistance, and corrosion resistance. It has been widely used in cement industry and steel metallurgical industry.

2,Index of Magnesite-Alumina Spinel Brick:

Item	JMA-5	JMA-10	JMA-15
MgO %≥	85	80	80
Al ₂ O ₃ %	5-7	8-10	15-17
Apparent Porosity %≤	18	18	17
Cold Crushing Strength Mpa ≥	40	40	40
Refractoriness Under Load(T0.6℃) ≥	1620	1650	1650
Thermal Shock Resistance≥	6	8	10
Bulk Density (kg/m ³)≥	2900	2900	2900

3,Pharacteristics of Magnesite-Alumina Spinel Brick:

Magnesite clinker and bauxite form spinel mineral facies during high temperature sintering and use, which improves product structure and the thermal shock resistance of product is greatly improved. At the same time, the product has excellent alkali slag corrosion resistance, the effect of producing protective layer is very good.

4,Service life: The products are used in cement rotary kiln and lime kiln for more

ZIBO JINGGAN REFRACTORY IMPORT AND EXPORT CO.,LTD

than 12 months.

5,Packaging: wooden pallet + waterproof wrapping film, suitable for land and sea transportation without damage.

6,About our production and supply of this product: Our factory has more than ten years of production experience, perfect production technology, complete quality control system, complete laboratory equipment. Our factory produces more than 20,000 tons of this product every year, providing large cement kilns, sleeve lime kilns, non-ferrous metal smelting furnaces and other users. Product shapes are diverse, all of which meet and exceed the user's requirements for product appearance and internal quality. At present, in addition to supplying domestic users, this product exports 5000-8000 tons per year.

7.Good feedback of product use effect,the products have been exported to Pakistan, Russia, Kenya, Mexico, Morocco

8.We are a professional supplier, who can provide customers with free product technology, use and other issues.

Do you want to find a professional supplier of refractory products?

Do you want to find a professional supplier of graphite electrodes?

Do you want to find a stable and credible supplier?

Then let's contact with jinggan company
